

CHEVY CHASE VIEW

Montgomery County Requirements:

All Chevy Chase View lots are zoned R-90 Residential. Main building height normally is limited to 2 1/2 stories or 30 feet. Accessory building height is limited to two stories or 25 feet. Accessory buildings are allowed only in rear yards. In some cases, Chevy Chase View requirements are more stringent than Montgomery County requirements.

Chevy Chase View Building/Demolition Permits are required for:

1. Construction of a new building or the exterior modification of a residence or accessory building that alters its three-dimensional boundaries. This includes, for example, adding (or enlarging) a porch or deck or erecting a storage shed, whether prefabricated or site-built. It does not include exterior repairs that do not affect the three-dimensional boundaries of a building, such as repairing an existing roof, or solely interior construction.
2. Construction of front yard driveway apron or curb cuts.
3. Construction of fences. Please see Sec. 11 and Sec. 13.C.2. of the Building Regulations for Chevy Chase View's limitations on fencing. Please note that fences near the street intersection on corner lots are limited to 3 feet in height by County regulation to allow for proper visibility.
4. Construction of in-ground pools, in-ground spas and pool decks. Please see Sec. 13.B.2.(c).
5. Demolition of 25% or more of any structure greater than 150 sq. ft.

Procedure to follow:

1. Application for a Montgomery County Permit must be made to the Department of Permitting Services (DPS), Rockville, MD, (240) 777-6200. Your architect or builder should be familiar with this procedure.
2. Application may be made for a Chevy Chase View Building Permit on the attached form. **Please note, the County mandates different minimum setbacks from Chevy Chase View. Please refer to Sec. 13.B. of the Chevy Chase View's Building Regulations for setback requirements. Corner lots present different interpretations and, prior to obtaining a permit, residents are advised to consult with the County regarding its rules.**
3. Please provide documentation of the established building line for new home construction and for any improvements located to the side or front of an existing home.

Note: If the proposed construction would encroach into the setbacks cited above, the application will be denied. In special cases and for good cause, residents may apply for a Waiver to be considered by the Chevy Chase View Council pursuant to Sec. 13.E of Chevy Chase View's Building Regulations. The County may also require a variance if the proposed project does not conform with its setback regulations.

For additional information, please contact Alan Beal, Building Permit Administrator, (202) 607-4153.

INSTRUCTIONS

A. Documents Required for a CCV Building Permit

Application for the Chevy Chase View Building Permit (**an original and seven copies**), which must be accompanied by:

1. A plat prepared by a licensed Maryland surveyor within the last five years, prepared to scale, showing the location of existing improvements. The proposed construction shall be overlaid on the plat clearly and accurately showing the distances to the front, rear and side lot lines. A plat or survey must be of sufficient accuracy for the Council to determine if any existing or proposed improvements encroach or may encroach into the CCV setback. If the proposed structure is to be located within 4 feet of a setback line, a boundary survey, with accompanying plat, showing the distances of all existing structures from all boundaries with a margin of error of +/- 0.1 feet, is required. The location of a proposed structure must be determined by measuring from the boundary line to the proposed structure.

Residents are encouraged to provide a boundary survey referencing two or more concrete monuments with reference numbers on sunken disks listed in the Town's control network. The location of the Town's concrete monuments with reference numbers on sunken disks are available on pages II-3 and II-4 of CCV Handbook.

A plat more than five years old may be used if it is the most recent surveyor's plat available, is otherwise prepared as above, and includes the property owner's representation that the plat accurately represents the current condition of the property with respect to the position of the residence and any accessory buildings and their distances from property lines;

2. One complete set of plans and specifications for the proposed construction that are identical to the Montgomery County stamped plans;
3. A copy of the signed Montgomery County Building Permit may be submitted after the application, but must be submitted before a CCV Building Permit will be issued.

B. Building Permit Application Fee Schedule

1. Applications for decks	\$75.00
2. Applications for fences & sheds	\$125.00
3. Applications for all structures other than decks, fences and sheds:	
a. Where the total cost of the project is estimated to be less than \$10,000.00	\$500.00
b. Where the total cost of the project is estimated to be \$10,000.00 or more	\$1000.00
	0
4. Applications for building demolition	\$500.00

C. Modification of Plans After Issuance of CCV Building Permit

A new application must be submitted for any proposed modification that would change the exterior three-dimensional boundaries of the construction for which a permit has been issued.

D. Documents Required for Cases Involving a Waiver from the Building Regulations

In cases where construction may require a Waiver from the Building Regulations, the application must include, in addition to the plat, plans, and specifications described above, statements signed by the property owner(s) which:

1. Identify the Section(s) of the Waiver Provisions being relied upon, i.e., whether the proposed construction would be an encroachment of
 - a. The front or rear setbacks [Sec. 13.E.3(a)(1)],
 - b. The side setbacks [Sec. 13.E.3(a)(2)] or,
 - c. Height limitation for fences [Sec. 13.E.3(b)];
2. Include all facts, under appropriate headings, upon which the applicant relies to show that the criteria of Sec. 13.E.3(a), (b), (c), and (d) of the Waiver Provisions would be met if the proposed construction were approved by the Council; and
3. Represent that, if the Council waives the Building Regulations, construction will proceed in accord with the terms of the written Waiver, and that no alteration of the plat or plans and specifications submitted for approval will be undertaken that may violate the Building Regulations without further Council approval.

E. Waiver Application Fee

An application fee of One Thousand Seven Hundred Dollars (\$1,700.00) must accompany all required documentation.

F. Filing Deadline for All Cases

1. When a Building Permit is requested, all statements and other documents upon which the applicant relies must be submitted to the Building Permit Administrator at least 14 days prior to the Council meeting, or the application will be considered at the next following Council meeting. Meetings are generally on the third Wednesday of each month.
2. In cases where there is no possibility that Building Regulations are implicated, the Council may delegate approval authority to the Council's Chairperson, jointly with another Council Member who are authorized, in their sound discretion to either:
 - a. signify approval of the application by their joint signatures on the application, or
 - b. decline approval, and refer the application to the next regular meeting of the Council.

G. Final "Wall Check"

A final "wall check", performed by a licensed surveyor or engineer, may be required.

All homeowners and/or their agents are required to abide by the Chevy Chase View Construction Site Protocol.

Application for Building Permit

CHEVY CHASE VIEW

Property Owner(s) _____

Property Address _____ Lot _____ Block _____

Phone Numbers (daytime) _____ (evening) _____

Surveyor: _____ Telephone: _____

Will the construction require obstructing or altering any part of a sidewalk, curb, gutter, driveway apron, street or any part of the CCV Right-of-Way? _____ If yes, describe on separate page.

Montgomery County Permit # (if available) _____

In the event your Montgomery County building permit is suspended, is revoked, or lapses, the Town permit is automatically revoked. Under this permit, you must begin work within 6 months and complete work within 12 months of the permit issuance date.

You must submit plans and specifications that show the existing structures and the proposed changes or additions. Be sure to clearly and accurately mark the distances from your property boundaries to the planned:

- Changes or additions to existing structures; and
- Any new structures.

You must also indicate:

- The exact distance of any projection into a setback (for a porch, bay window, eave and gutter, etc.)
- The height of any changed or new accessory building; and
- The exact location of any construction at- or below-grade, such as a driveway or basement areaway.

If you are constructing or altering any fence, please provide a diagram of the fence that shows its location with respect to your property lines and indicate the height of the fence (measured from the ground on the lower side) and the construction material and style, such as wooden picket or chain link.

By signing this Application, you agree to the following:

1. I/we have read the current Chevy Chase View Building Regulations (Sec. 13). To the best of my/our knowledge, this application and information submitted with it are complete and accurate.
2. I/we understand that this building permit is issued on the condition that actual construction conforms to the approved plans, and I affirm that the Montgomery County stamped plans are identical to the to the plans approved by Chevy Chase View.
3. I/we affirm that if I/we submit plans to Montgomery County which alter the three-dimensional boundaries of any construction authorized by this permit or for which an additional or amended permit is required, I/we will notify the Town Manager or the Building Permit Administrator immediately and will submit a copy of the revised plans to Chevy Chase View. I/we understand that I/we cannot proceed with construction until Chevy Chase View approves the revised plans.
4. I/we have read and understand the Chevy Chase View Construction Site Protocol(CSP), and I further understand that I/we must acknowledge acceptance of the terms of CSP prior to receipt of the CCV permit.
5. I/we understand that the Town requires that any damage to the public right-of-way caused by me/us or my/our contractor(s) must be repaired by a Chevy Chase View designated contractor at my/our expense.

2. Description of Proposed Work _____

3. Reason for Requesting Waiver: On an attached sheet, please describe why you need a waiver and why you believe you meet the standards for granting a waiver. In particular:

1. Identify the Section(s) of the Waiver Provision being relied upon, i.e., whether the proposed construction would encroach upon a front, side, or rear setback or exceed the height limitation for fences;
2. Include all facts, under appropriate headings, upon which the applicant intends to show that the criteria of the Section of the Waiver Provision relied upon would be met if the proposed construction were approved by the Council; and
3. Represent that, if the Council waives the Building Regulations, construction will proceed according to the terms of the written waiver, and that no alteration of the plat or plans and specifications submitted for approval will be undertaken that may violate the Building Regulations without further Council approval.

Along with this application, please submit all documents required for Chevy Chase View Building Permits (see pages V-1 through V-5 of Building Procedures). An application fee of One Thousand Seven Hundred Dollars (\$1,700.00) must accompany all required documentation.

This application will be placed on the agenda for the first Council meeting at least 20 days after a complete application is filed with the Building Application Administrator. Generally the Council meets on the third Wednesday of every month. You are invited to present your case in person at the scheduled meeting.

Bond Requirement Guidelines For Chevy Chase View Construction

The Council requires that the property owner/owner's agent or contractor obtain a cash performance bond or letter of credit to guarantee restoration of the public right-of-way when facilities in the public right-of-way are damaged in connection with a construction project. **The public right-of-way includes, but is not limited to, curbs, driveway aprons, streets, trees and sidewalks.**

For construction projects costing less than \$10,000, there is no bond requirement.

For construction projects costing \$10,000 or more, a \$5,000 cash performance bond or letter of credit shall be provided by the property owner/owner's agent or contractor. Such bonds will be made to the Town of Chevy Chase View, and must be provided in order to receive a building permit.

Applicants for a Building Permit will:

- Provide an estimate of the construction cost on the building application.
- Provide a cash performance bond or a letter of credit issued by a federally insured financial institution operating in the State of Maryland
- At the completion of the construction project, notify Town Manager in writing that work is completed and request release of cash performance bond or letter of credit. Any restoration work to the right-of-way must be completed by a CCV designated contractor.
- Participate in a pre-construction meeting to be conducted by the Building Permit Administrator at the subject property for the purpose of exchanging information and discussing building permit conditions and the procedures concerning the required bond or other security.

The Town Manager will:

- Review the bond or letter of credit for completeness and correctness.
- Ensure that the monies or security are properly accounted for and held safely.
- Return the monies or securities as per Protocol Regarding CCV Cash Performance Bond/Letter of Credit.

The Council of Chevy Chase View will:

- Ensure that a designated individual inspects and photographs the right-of-way both before a building permit is issued and after notification by the property owner/owner's agent or contractor that construction is completed.
- Notify the Town Manager to release the monies or other security to the property owner/owner's agent or contractor if there is no damage to the right-of-way.
- Be responsible for any adjudication of restitution. The Council member responsible for street maintenance will communicate with the property owner/owner's agent or contractor and keep the Council fully informed. Bond or letter of credit will not be released until the issue is resolved.

Other Notes to the Applicant:

Although we are requiring a bond or letter of credit in the amount of \$5,000, if the property owner/owner's agent or contractor does damage to the right-of-way, the property owner will be responsible for the full cost of repairing the damage.

If landscaping, such as loads of topsoil, etc, is necessary after the final Montgomery County inspection is completed, and there is damage to the right-of-way, the property owner will also be responsible for the full cost of repairing the damage.

**CASH PERFORMANCE BOND
FOR
RESTORATION OF PUBLIC RIGHT-OF-WAY**

Re: Permit No. _____ for _____

_____ dated _____

KNOW ALL MEN BY THESE PRESENTS as a requirement for, and condition of the above-referenced permit (the "Permit"), PERMITTEE _____, hereby binds itself and its successors and assigns to the Town of Chevy Chase View (the "Town") in the amount of _____ (\$_____), by depositing said amount (the "Security") with the Town Manager, subject to the conditions stated below.

The condition of this Cash Bond is that if Permittee shall fully perform the following requirements in a manner satisfactory to the Town, then this Security shall be discharged, but otherwise it shall remain in full force and effect:

1. Faithfully complete the repair, re-construction and/or restoration of any facilities, including, but not limited to, curbs, gutters, streets, driveway aprons, sidewalks, trees, plantings and signs, in the public right-of-way that may be damaged or disrupted in connection with the work authorized by the above-referenced building permit, within 30 days of demand therefor or such other period of time specified by the Town Manager. All work performed pursuant to this paragraph must be performed by a Chevy Chase View-designated contractor.
2. Comply with all applicable ordinances and requirements of the Town, Montgomery County and the State of Maryland with respect to the public right-of-way.
3. Save harmless the Town from any expense incurred through the failure of the Permittee, or the Permittee's agents and servants, to complete the required repairs, re-construction and/or restoration, or from any damages growing out of the negligence of the Permittee or the Permittee's agents or servants.

The Town shall retain the Security for up to the full amount thereof until Permittee promptly completes, and has accepted by the Town, all work required under the Permit and this Bond, or, when applicable, posts substitute security. If Permittee fails to satisfy any of the conditions of this Bond the Town has the option, but in no way is required to utilize the Security to complete the work covered by this Bond. Upon the satisfactory completion of the work as required, the Town shall return the Security or its proceeds less the amount of any claims, damages, or costs incurred by the Town in connection with this Bond.

Notary Public

My Commission Expires: _____

The Letter of Credit must be issued by a federally insured financial institution operating within Maryland.

ON FINANCIAL INSTITUTION'S LETTERHEAD

DATE:

Irrevocable Letter of Credit No.:

Town of Chevy Chase View:

We hereby issue in your favor this irrevocable letter of credit upon which you may draw up to an aggregate amount of _____ (\$_____), available upon the production of a written demand for payment and a written statement by the Town Manager of Chevy Chase View or the Town Manager's designee that _____ failed to repair, reconstruct or restore the public right-of-way as required by Permit No. _____ or otherwise failed to comply with all the terms and conditions of the Permit issued by the Town of Chevy Chase View, Maryland to _____ and dated _____ (Permit No. _____), including but not limited to the requirement that the Permittee shall repair and/or replace any facilities in the public right-of-way if such facilities are damaged in connection with the project for which the permit is issued and the requirement that the Permittee save harmless the Town of Chevy Chase View, from any expense incurred through the failure of the Permittee, or the Permittee's agents and servants, to complete the required repairs, re-construction and/or restoration, or from any damages growing out of the negligence of the Permittee or the Permittee's agents or servants.

This letter of credit shall be valid, and our obligations hereunder shall continue uninterrupted for a period of three years following the date of issuance indicated above, provided that on that date this letter of credit shall automatically be extended for an additional one year period and shall further be automatically extended annually for additional one year periods unless _____ (name of financial institution) notifies the Town Manager by certified mail at least thirty days prior to such initial or subsequent expiration date that this letter of credit will not be extended for such additional period. We further agree that no change, extension of time, alteration or addition to the work to be performed or to the plans or specifications relating to the same, shall in any way affect our obligation under this letter of credit, and we specifically waive notice of any such change, extension of time, alteration or addition.

We further agree that all demands for payment made under and in compliance with the terms and conditions of this letter of credit will be duly honored by us and that no defenses that may be available to the Permittee will be asserted against your demand for payment made hereunder.

Protocol Regarding CCV Cash Performance Bond/Letter of Credit

1. Before a building permit is issued, Chevy Chase View (CCV) will schedule an on-site visit and meet with property owner/owner's agent or contractor to review the scope of work and to assess the condition of the right-of-way. CCV and/or its agents will take appropriate pictures of the right-of-way indicating its condition before construction work begins. Prior to the issuance of the permit, the applicant must review dated pictures taken of the right-of-way and sign on provided line.
2. CCV will review utility cut restoration with applicant. Applicant will be advised of dollar amount range that a particular utility cut could cost. This cost will depend on the actual expense for the CCV-designated contractor to install the permanent patch after the project is completed less amount CCV is reimbursed by said utility.
3. Upon completion of the project, the property owner/owner's agent or contractor shall submit in writing a request for release of the bond/letter of credit.
4. Within ten (10) days of receipt of a request for release of the bond/letter of credit, the CCV Town Manager or agent and a CCV-designated contractor will schedule an on-site inspection to assess the condition of the right-of-way, take appropriate pictures of the right-of-way, and determine if repairs are needed as a result of damage resulting from construction.
5. If no repairs are needed, the bond/letter of credit will be released. If repairs are needed, the CCV-designated contractor will submit to the CCV Town Manager a written proposal for repair work.
6. Within ten (10) days of receipt of the proposal, the CCV Town Manager or agent will contact the property owner/owner's agent or contractor to schedule an on-site meeting to review the CCV-designated contractor's proposal for repair work.
7. Following ten (10) days after the on-site meeting, CCV may accept the CCV-designated contractor's proposal and schedule repair work.
8. The property owner shall be financially responsible for all repair work by CCV and performed by the CCV-designated contractor. If repair costs exceed the amount of the bond/letter of credit, CCV will send an invoice to the property owner/owner's agent or contractor for the difference.

Chevy Chase View Construction Site Protocol (CSP)

These permit conditions are intended to highlight important building-related rules and regulations. They do not represent a comprehensive list of building laws. For additional information, please refer to the appropriate Town and County building ordinances.

GENERAL

1. The building permit shall be posted on the job site in public view, along with a list of standard and special permit conditions in English and Spanish.
2. After a permit has been issued, it shall be unlawful for any person to modify or alter any plans without the prior written approval of the Town Manager.
3. Work under any Town permit shall begin within 6 months and must be completed within 12 months after the permit is issued, unless an extension is granted in writing by the Town Manager.
4. It shall be unlawful to continue work when a permit has been suspended, revoked or when a stop work order has been issued.
5. The Town may examine the work and the building as often as necessary and may order any corrective action necessary to comply with Town regulations.
6. The Town must be notified 48 hours in advance of required building inspections.
7. Construction noise levels must conform to Chapter 31B of the Montgomery County Code, entitled "Noise Control." Montgomery County ordinances govern construction noise. Construction may not start until 7am on week days, and until 9am on weekends and holidays. Construction noise is to stop at 9pm. To report noise disturbances outside regular business hours, call Montgomery County Police non-emergency line at 301-279-8000.

PRIVATE PROPERTY SITE MANAGEMENT

1. The building site shall be kept clear of all rubbish, including trash and construction-related debris.
2. The location of all dumpsters and portable sanitation facilities shall be approved by the Town and noted on the site plan. No dumpsters or sanitation facilities shall be located on the public right-of-way.
3. Dumpsters may not be used as collection points for other construction sites or for discarding perishable waste. Perishable waste shall be disposed in separate containers.
4. Construction materials are forbidden to be part of the Tuesday/Friday weekly residential refuse pickup.
5. Any required erosion and sediment control plan and/or tree protection plan must be maintained throughout the course of the permitted work.
6. Dust associated with demolition must be controlled by metered water spray. Dust associated with stone cutting must be controlled by a wet saw.

PUBLIC PROPERTY SITE MANAGEMENT

1. Prior to construction a fence or other structure must be installed around all right-of-way trees that may be affected by the construction. The fence or barrier must surround the tree at a distance of at least 3 feet from the trunk of the tree.
2. No person shall store or allow an accumulation of refuse, excavation or construction debris, or any construction materials on any public right-of-way including, but not limited to, streets, sidewalks, curbs, gutters and grassy areas. Accumulation of mud or dirt must be removed from the public right-of-way daily. Public sidewalks must be kept passable at all times unless otherwise approved by the Town.
3. Unattended construction pits and trenches in the public right-of-way shall be clearly marked and covered.
4. Any repair, alteration, modification to or closure of any street or sidewalk that prohibits the free passage of vehicles or pedestrians shall be clearly marked with barricades, safety barriers, or both and may not exceed ten (10) days unless specifically authorized, in writing, by the Town Manager.
5. At no time should the homeowners' or construction vehicles be parked within 15 feet of a fire hydrant, within 20 feet of a crosswalk at an intersection, within 30 feet in front of any flashing signal or stop sign located at the side of a roadway, in front of a private driveway except with the consent of the owner or occupant of the premises.
6. No vehicles may be parked on Town sidewalks, driveway aprons or on any area between the curb and/or gutter and sidewalk.

7. Construction vehicles must park on the building site or on the side of the street directly in front of the building site, whenever possible.
8. No construction trailers or other equipment shall be parked or stored on Town streets or in the Town right-of-way between the hours of 10 p.m. and 6 a.m.
9. Public property site management shall be compliant with the Americans with Disabilities Act.
10. CCV and its residents expect the construction site to be generally free of construction waste. This means that the owner will either have a Dumpster for the waste, or will have the waste regularly removed from the site. No construction vehicle can remain on a CCV street overnight. No Dumpster will be allowed in the street or public right-of-way.

Contractors using heavy equipment and Dumpsters within CCV must pay strict attention not to damage the roadways, curbs and aprons within the neighborhood. Any damage to the streets, including oil and paint spills, is the responsibility of the property owner. Any repairs to CCV streets can only be made by a CCV-designated contractor.

Therefore, roadways must be properly protected before Dumpsters can be set or heavy equipment parked. This will help prevent gouging of the pavement as well as dimpling of the asphalt where rollers on the Dumpsters sit on the asphalt for extended periods and the bucket end of backhoes, Bobcats, and the like touch the streets. Thick plywood, or the equivalent, must be set on the roadways before Dumpsters are set. Plywood must also be set under the scoop or bucket end of heavy machinery.

The CCV Building Permit Administrator will examine and photograph the block or blocks of CCV roadway surrounding a construction area at the time a CCV building permit is granted. Once a job is complete, the CCV-designated contractor will visit the street areas to determine whether repairs are needed or the homeowner's bond can be released, according to the Protocol Regarding CCV Cash Performance Bond/Letter of Credit.

Affidavit

I have read the above requirements and am aware that failure to follow them could lead to a stop work order, fines or revocation of my CCV Building Permit.
